

SCARAB

***PLENTY OF ROOM FOR FRIENDS, FAMILY
AND FUN. NO ROOM FOR MEDIOCRITY.***

Scarab® was born to challenge the conventions of boat design,
so you can challenge the limits of boating. It's in our heritage.
It's who we are. And it's why we design and build boats that excite
all the senses, from first look to first punch of the throttle.

***THE BADDEST JET BOAT LINEUP
IS NOW THE BIGGEST.***

Four boldly designed models, from 16 feet to 25 feet, that live up to the Scarab name. All featuring powerful, proven Rotax® Jet Power. All built to avoid boredom, raise adrenaline and leave the status quo gasping for air.

Experience the unmatched performance of Rotax® Jet Power.

Every Scarab boat is powered by Rotax Direct Drive Jet Propulsion, cranking out higher torque and more standard horsepower than the competition. And with over 450,000 Rotax 4-TEC® engines on the water, it's not just power. It's proven power.

Direct power gives you maximum power.

Unlike a conventional prop engine, which pushes water in a dispersed pattern, Rotax Jet Power concentrates thrust. An onboard impeller pulls water in and forces it out at a single point for maximum power. Less wasted engine power means more power in your throttle hand.

Shallow draft to go anywhere.

Rotax Jet Power allows you to take the thrills to almost any place on water. Its shallow 12-inch (30 cm) draft makes it easier to avoid hazards like rocks, shallow boat ramps and other obstacles. And with no prop, it's safer for swimmers, too.

Faster planing for towing wakeboarders, tubers and skiers.

Because Rotax Jet Power uses water more efficiently, you get quicker hole shots, less bow rise and even quicker getaways from the norm.

Cleaner technology means more enjoyable boating.

All Scarab boats have Super Ultra Low Emissions, making them CARB/EPA 4-Star compliant, the highest standard for engines. It's a cleaner, better experience for water skiers, wake surfers and the environment.

An easy way to adjust your ride.

Choose from three engine modes: ECO Mode sets the engine at the best on-plane range. SKI Mode offers five different acceleration speeds to choose from. DOCKING Mode gives you more touch around the dock.

Lateral Thrust Control delivers quicker reverse.

Unlike other boats, which feature a small, plastic reverse gate, our aluminum reverse gate offers unmatched low-speed maneuverability to make docking a breeze.

Weed and rope guard makes your day hassle-free.

Our cutting-edge shaft guard prevents weeds or tow ropes from wrapping around the drive shaft. No need to clean out the ports that you find on other boats.

Run cooler and cleaner for longer life and better performance.

Closed-loop cooling keeps external water and dirt out of the engine for longer life.

165

It's the only 16-foot jet boat on the water, not to mention the planet. And it shows. All the power you need to separate yourself from the pack, along with tons of extra features that make this boat, and you, stand out on the water.

165

FEATURES

ComfortRide Seats

Spring-reinforced seats make even the choppiest rides feel smooth. Split down the middle for breathability on hot days.

The Captain's Helm

The stainless steel gauge cluster is all about keeping everything within easy view, which puts you in total control.

Roomy Swim Platform

With a swim mat designed to prevent slipping and plenty of space to play, this platform is a launching pad for fun.

195

The 195 gives you an all-access pass to the legend that is Scarab. Featuring an audacious design, spacious interior, razor-sharp handling and ultra-premium setup, it's proof that breaking free from the norm starts in the engineering lab.

195

FEATURES

Pearlescent Upholstery

Stitched with modern materials, the textured upholstery glistens in the sunlight like it was made of water. And just wait until you sit in it.

Versa-Lounge Seating

It's the only jet boat with a full sun pad. Stern seating converts to three positions, so you can worship the sun gods from any angle.

Sports Car-Inspired Dash

We looked beyond the boat industry for inspiration: contrasting finishes, gauge cluster display and a sleek style that everyone will notice.

SPECIFICATIONS

LOA	18'10"	5.74 m	Persons Capacity	8	8 CE
Beam	8'0"	2.44 m	Approx. Dry Weight	2420 lbs	1098 kg

215

Sleek, stunning lines. Loads of luxury features that come standard. Twin Rotax Jet engines operating deftly at your fingertips. This is just a taste of what our 215 offers you. The only question is, what are you going to do with it?

215

FEATURES

Foldable Tower

A black bimini top and wakeboard tower that's easy to put up and down. Because your choice of fun changes as often as the weather.

Ski Locker

Just because you have a ton of gear, doesn't mean you want to see it. So stow it away until it's time to ride.

Notched Seating

A small, smart cutout lets passengers sit more comfortably, which means no more fighting for legroom.

255

The big boy of our lineup brings a full 25 feet of Scarab excitement to your dockside. Get up to 13 of your closest thrill seekers onboard and get the party started. Wakeboarders, skiers and tubers will dig the get-up-and-go of the powerful twin Rotax engines. An available Platinum Trim Package takes luxury to another level. It's time to go big, so you can go big.

255

FEATURES

Spacious Head

Tucked away, yet easy and comfortable to use, this head has enough space so people can get in, get out and get on with the party.

Create-A-Lounger

On those occasions when you have room to spread out and stretch the legs, the fold-out lounge cushion can easily accommodate.

Easy Walkthrough

Go from dock to rear sun deck to cockpit with ease on the thoughtfully designed walkthrough.
